ANGEL WIEBE

SKILLS

- Javascript, React, Typescript, React Native, Node.js, Angular
- PHP, Laravel, MongoDB, MySQL
- Git, Docker, Azure DevOps, CI/CD pipelines
- Client facing project leadership, mentoring juniors
- Bilingual proficiency (French/English)
- Passion for Development

EXPERIENCE

I am a seasoned software developer with over 8 years of experience and a strong focus on front-end technologies, complemented by a growing expertise in backend development. My experience includes creating tailored solutions such as a bespoke billing system using Laravel and React, alongside personal projects that highlight my continuous learning and passion for innovative development. I am eager to bring my problem-solving skills and dedication to quality code to your team. Please see my [GitHub](#) repositories.

Contractor – *Full Stack Developer*

April 2024 – PRESENT

Focusing on expanding my skill set, I have dedicated my time as a contractor to exploring side projects that emphasize backend development, particularly with Golang, building and optimizing RESTful APIs and microservices to achieve high performance and scalability.

- Technical Environment: Golang, React, Git, Docker

Emids Technologies, Gatineau, QC – *Senior Developer*

APRIL 2022 – MARCH 2024

At Emids Technologies, a leader in digital engineering with a focus on health care, I led client facing project teams in developing and deploying innovative software solutions. My contributions included leading client meetings, task management for the team, as well as mentoring junior developers.

- Technical Environment: custom backend language (Honey), NodeJS, React, TypeScript, SCSS, MongoDB, Git, Azure DevOps, Docker, MS Teams, Slack, VS Code

Tactica Interactive, Winnipeg MB – *Full-Stack Developer*

OCTOBER 2020 – MARCH 2022

Tactica Interactive is known for its creative and interactive digital solutions as a contracting firm. I played a pivotal role in front-end development, leading the creation of custom mobile apps for both iOS and Android platforms and deploying them to app stores with a focus on accessibility.

- Technical Environment: React Native, Ruby, SCSS, Git, Android Studio, Xcode, Slack

Bold Commerce, Winnipeg MB – *Full-Stack Developer*

FEBRUARY 2016 – OCTOBER 2020

Bold Commerce specializes in E-Commerce solutions, where I was responsible for managing full-stack web app development and database management. I created a bespoke billing system from my department using Laravel and React, improving internal workflows and demonstrating my aptitude for learning new technologies.

- Technical Environment: SQL, PHP (Laravel), HTML5/CSS3, JavaScript, React, Angular, Liquid, Git, Docker

Varian Medical Systems – *Intern*

JANUARY 2016 – FEBRUARY 2016

- Received training in software testing within a high-pressure medical environment

EDUCATION

Software & Database Developer, Robertson Career College – *Graduate*

APRIL 2015 – MARCH 2016

Focused on project-driven web development, specializing in both back-end and front-end technologies.

Coursework Highlights:

- **Achievements:** Graduated with Academic Excellence, maintained a 98% average, and completed advanced projects like a math game and a movie database system beyond the course curriculum.
- **Back End:** Proficient in SQL, ASP.NET, ADO.NET, and C#, with experience in web services and XML.
- **Front End:** Skilled in HTML5, CSS3, MVC architecture, and dynamic web development using JavaScript, JQuery, JSON, and AJAX.

Ecole Pointe-Des-Chênes, Ste. Anne, Manitoba – *High School Graduate*

Graduated with honors
