PROFESSIONAL SUMMARY

Full-stack developer with 10+ years of experience building production web and mobile applications using React, TypeScript, JavaScript, React Native and Node.js.

Owns end-to-end features, REST APIs, database design, real-time streaming and event-driven services. Experienced in client-facing leadership, mentoring and AI-assisted development with Cursor.

TECHNICAL SKILLS

Frontend: React, React Native, Expo, TypeScript, JavaScript, React Query, Zustand, Angular, SCSS

Backend: Node.js, Express, PHP, Laravel, REST APIs, GraphQL, SignalR, WebSockets, event-driven architecture

Databases: PostgreSQL, MySQL, MongoDB, SQL, database design

DevOps & Testing: Docker, Git, Azure DevOps, CI/CD, Jest, Vitest, automated testing

Leadership: Mentoring, client-facing leadership, technical ownership | Languages: English and French

WORK EXPERIENCE

Full-Stack Developer (Independent Contractor) | 2734539 Alberta Ltd. | Remote, Alberta

April 2024 – Present

Client: Topstep | Full-Stack / React Native Developer | Remote

Developed mobile trading features for an upcoming React Native (Expo) application and Node.js/TypeScript backend.

• Improved real-time chart responsiveness by separating streaming market data from server state, managing timeframe changes and overlays, and limiting unnecessary React Native updates.

• Developed an event-driven alerting service for price thresholds, trade executions and position changes, including end-to-end price alert creation.

• Built and integrated Node.js/TypeScript backend endpoints and mobile workflows using GraphQL and SignalR for trading data and application functionality.

Client: Intuit / Mailchimp | Full-Stack Developer | Remote

• Integrated a Zendesk support widget into the Mailchimp Shopify homepage and plan-selection experience using React, TypeScript and PHP, accounting for feature flags and multiple initialization contexts.

• Used Cursor for codebase analysis, scaffolding, refactoring, debugging, testing and security reviews while retaining ownership of implementation decisions.

Technical Environment: React Native, Expo, React, TypeScript, Node.js, Express, GraphQL, SignalR, REST APIs, React Query, PHP, Docker, Git, Cursor

Senior Developer | Emids Technologies | Gatineau, Quebec

April 2022 – March 2024

• Led client-facing project meetings, coordinated delivery and mentored junior developers.

• Developed healthcare-focused software using React, TypeScript, Node.js and MongoDB.

• Collaborated using Azure DevOps, Git, Docker and team development workflows.

Technical Environment: React, TypeScript, Node.js, MongoDB, SCSS, Git, Azure DevOps, Docker

Full-Stack Developer | Tactica Interactive | Winnipeg, Manitoba

October 2020 – March 2022

• Built accessible React Native applications for iOS and Android and supported app-store deployment.

Technical Environment: React Native, Ruby, SCSS, Git, Android Studio, Xcode

Full-Stack Developer | Bold Commerce | Winnipeg, Manitoba

February 2016 – October 2020

• Developed full-stack e-commerce features and integrations using React, PHP, Laravel, JavaScript and SQL.

• Integrated Staples with a third-party fulfillment provider, supporting the flow of order and fulfillment information between systems.

• Implemented CSS customizations for Staples' Shopify checkout experience, working within a checkout implementation owned by a separate payments team.

• Built an internal invoicing application that replaced manual billing work and saved managers several hours each per month.

• Collaborated directly with clients on selected projects and contributed to application and database development.

Technical Environment: React, Angular, PHP, Laravel, JavaScript, SQL, Liquid, Git, Docker

Software Testing Intern | Varian Medical Systems | Winnipeg, Manitoba

January 2016 – February 2016

• Trained in software testing in a medical technology environment.

EDUCATION

Diploma, Software & Database Development | Robertson Career College | March 2016

Award of Academic Excellence; 98% academic average. Coursework: SQL, C#, ASP.NET, JavaScript, jQuery, HTML5, CSS3.
